## Career Objective

---

Motivated and detail-oriented third-year Computer Science and Engineering student with hands-on experience in Python, full-stack development, Skilled in building functional web applications and collaborating within agile teams during internships. Seeking a Software Developer Intern / Entry-Level Developer role to apply strong problem-solving skills, programming knowledge, and a passion for continuous learning to deliver quality software solutions.

## Internships

---

**Full stack development intern, Aptimark Solutions** coimbatore

- Developed and deployed full stack web applications by building responsive frontends, implementing backend logic, and integrating databases for seamless functionality.
- Worked on multiple academic and personal projects, creating secure, scalable, and user-friendly web solutions with clean, maintainable code.
- Continuously improving my full stack development skills by learning new technologies, following best practices, and building real-world projects to enhance my experience.

**Full Stack Development Intern, Brainary Spot Technology** coimbatore

- Gained practical exposure to full-stack development practices, including building and testing web application components.
- Collaborated with team members on software development tasks, strengthening communication and teamwork skills.
- Developed a foundational understanding of the software development lifecycle within an internship setting.

**Full Stack Development Intern, Nxt Logic Technology** coimbatore

1 Month

- Gained hands-on experience in full-stack web development, working across front-end and back-end technologies.
- Learned practical implementation of web application development concepts under guided mentorship.
- Applied programming and problem-solving skills to real-world development tasks in a professional environment.

## Education

---

**Bachelor of Engineering (B.E.) – Computer Science and Engineering, SNS College of Engineering**

Currently in 3rd Year CGPA: 8.026

**Higher Secondary Education (Class XII), Chinmaya Vidyalaya**

**Secondary School Education (Class X), Chinmaya Vidyalaya**

## Technical Skills

---

### Programming Languages

Python , Java , C , React.js , Django , Flask

### Tools & Design

Canva, Git & GitHub, VS Code

### Soft Skills

Teamwork, Communication, Problem Solving, Quick Learner, Adaptability

### Web & Full Stack Development

HTML, CSS, JavaScript, Full Stack Development (Basic), Web Application Development

### Core Concepts

Data Structures, Software Development Life Cycle (SDLC), Application Development, Debugging & Testing

## Projects

---

### DocLink – Online Doctor Consultation Application, *Academic Project*

- Collaborated as a Technical Team Member to design and develop a full-stack web application enabling users to remotely consult doctors, improving accessibility to healthcare services.
- Contributed to development, implementation, and testing of core application features as part of a cross functional team.
- Applied full-stack development concepts, including front-end interface design and back-end functionality, to deliver a working software solution.
- Practiced collaborative software development workflows, including teamwork, task ownership, and iterative feature improvement.

## Certifications

---

- Microsoft Azure AI
- NASSCOM – Digital Edge 101
- IBM – Enterprise Design Thinking Practitioner
- IBM – Enterprise Design Thinking Co-Creator

## Languages

---

- English, Tamil
